COLLECTION

Inspired by the movement of waves, the collection expresses fluidity in sculptural form. Each piece translates the rhythm of moving water, transforming energy into marble. With soft curves and organic lines, the vases reveal how stone can gain vitality and cadence, converting solid matter into a living gesture.

"WE WANTED TO TRANSLATE THE MOVEMENT OF THE WAVE INTO FORM, GIVING THE MARBLE A SENSE OF RHYTHM, FLUIDITY AND TRANSFORMATION."

Created by the design duo **Monics + Vieira**, the **DUETO** collection is a reflection on balance, duality and shared vision. Launched at Marmomac 2024 and conceived as a tribute to Galrão's 70th anniversary, the collection reimagines marble as an organic and expressive material, capable of lightness, fluidity and timeless resistance. Each piece explores contrasting elements that coexist: solidity and delicacy, tradition and experimentation, sculpture and utility. From the limited edition of seven chairs to the dining table and now the new coffee and side tables, the collection introduces a sculptural presence into contemporary spaces, without ever losing the integrity of the stone.
