ONDA

COLLECTION

Inspired by the movement of the wave, the ONDA Collection captures fluidity through sculptural form. Each piece translates the rise and fall of energy into marble, echoing the natural rhythm of water in motion. With soft curves and organic lines, these vases reveal how stone can embody vitality, cadence and flow. ONDA brings movement into stillness, transforming solid matter into a living gesture.

"WE WANTED TO TRANSLATE
THE MOVEMENT OF THE WAVE
INTO FORM, TO GIVE MARBLE
A SENSE OF RHYTHM, FLUIDITY
AND TRANSFORMATION."

ONDA is a modular marble piece, composed of four elements that transform into multiple functions and compositions. Available in two size S and L, each module, both autonomous and sculptural, finds new expression in dialogue with the others. Its fluid forms evoke the movement of water, revealing how stone can embody lightness and cadence. ONDA does not simply contain: it reveals, transforms, and reshapes space, like a wave in perpetual renewal.

ONDA COLLECTION

Composed of four interlocking parts, the ONDA combines distinct shapes into a single sculptural piece, where modularity and harmony come together.
